DETAILED ACTION

Request for Continued Examination

1. The request filed on September 7, 2006 for a Request for Continued Examination (RCE) under 37 CFR 1.53(d) based on parent Application No. 10/626,009 is acceptable and a RCE has been established. An action on the RCE follows. Claims 1-7, 14-18, 34-37 are pending.

2. In view of amendment filed July 27, 2006, the rejection of Claims 1-7, 14-18, 34-37 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, is withdrawn. However, in view of "new matter" as indicated in the following rejection, the rejection of Claims 1-7, 14-18, 34-37 under 35 U.S.C. 112, second paragraph, can be reinstated later.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the

Art Unit: 1713

art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-7, 14-18, 34-37 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amended claim 1 introduces terminology standards that are not supported by the original specification. Therefore, the amendment made on claim 1 introduces "new matters" that are not supported by the original specification.

Applicant's arguments filed September 7, 2006 have been fully considered but they are not persuasive. Applicants argue that by entering the amendment filed July 27, 2006 would put the instant case in a better form for an appeal. However, because both the original terminology employed in the original specification and the subsequent terminology as appears in the amended claim 1 have different meanings in view of the attachment filed May 26, 2006, the examiner has a reasonable basis that the amended claim 1 contains "new matters". Applicants are required to submit an amendment to remove the "new matters" introduced.
